

SAFELEASE TENANT PROTECTION

RV, Boat, and Vehicle Parking

HIGH-VALUE ASSET COVERAGE WITHOUT THE HIGH DEDUCTIBLE

Vehicle insurance policies come with high coverage limits — and high deductibles. SafeLease allows you to provide tenants at your facility a low-deductible protection plan that safeguards them against losses to their stored vehicles. The damage or loss must occur while the vehicle is being stored on facility property in order to file a claim.

PROTECTED

- Damage to the vehicle's exterior, i.e., dings, dents, scrapes, and scratches
- Theft of, or damage to, OEM parts
- External damage to the vehicle from a burglary or attempted burglary*

**Police report required*

NOT PROTECTED

- Items not permanently attached to the vehicle, i.e., grill, propane tank, generator, etc.
- Items stored inside the vehicle

SafeLease provides storage owners and operators with everything they need to implement a RV, boat, and vehicle protection program.

No licensing or upfront costs are required to implement a SafeLease Tenant Protection Program. The program does not require you to market or sell insurance to your tenants.
